

UTILITY OF LIBRARY FOR ENHANCEMENT OF PHYSICAL EDUCATION AND SPORT IN ACADEMIC COLLEGES

Dr. Shekhar Dongre

Librarian, Mulund College of Commerce,

S.N.Road, Mulund (W) Mumbai

Abstract

We are leaving in the information age, Information is an essential factor in the every fields. In the world lots of information are generate in every movement on different topics and subjects, including physical education and sports, in this regards, library play a vital role to control this information and update the subject specialist sports person in the area of specialization.

Keywords : Utility of Library, Physical Education, Sports

Introduction

Library is a soul of any intuition without library an institution cannot achieve the goal. In academic colleges library play a vital role to achieve the institutional objective through the library services. Library is a place where the teacher and student acquire their required information and latest development including physical education subject and sports.

Different types of subjects taught in academic colleges like science, commerce and arts in academic colleges.

Physical education subject is a compulsory to all students. Every academic institution appoint a subject specialist in physical education is called Director of physical education and sorts in respective colleges to enhance the sports activity among the students.

The question is arise that what is the utility of library to promote the sport activities is academic institute

Utility of Library in Physical Education and Sports

- To Develop the reading habits on sport literature among the students.
- To Aid the students in their sports and sharpen their intellectual curiosity.
- To provide the information sources necessary for teaching sports activity in physical education fields.
- To Aid the teacher to the latest development in physical education and sports.
- To Develop research attitude in Physical Education and sports in the colleges

Roles of Librarian to enhancement of Physical education and sports in colleges

Librarian is an information specialist, he play an important role to enhancement the physical education and sport activities in the college. Librarian should be co-ordinate with Director of Physical education so that he transforms the information and knowledge to the sport students. Discuss with student about their game, their requirement of information, and disseminate information on sport to particular sportsperson. Student can find out their lacunas and upgrade our self in the sport. For the growth of sport Librarian should be insist the authority to increase the Library budget for proper purchasing of sport books, in the library.

Facility provide by the library to sport person in the college

- Provide Audio-Visual and Digital tapes on different sport to enhancement of sport activity in the college.
- Provide extra books and time to sport person to enhancement of sport activity in the college.
- Provide scholar card to sort person on the basic of performance in District level, State & National level so he can avail extra book from library.
- Not to imposed the library fine on sport person.
- Provide Book-Bank facility to sport person, so he can continue their study in home and prepare our self for college or university examination.
- Generate sport corner in the library, and provide all physical education and sport books, journal and magazines in this section, so sport person can easily find ourt the required information in this section.

Conclusion

If we see the current scenario of Academic Library in sport activity in rural parts of India is not up to the mark and also the Library services. It should be improve the library services o the sport person come forwards and take the advantages of information and knowledge on sport and Physical education from the college Library.
